

Gesture of Awareness

A Weekend of Practice with Charles Genoud in Basel

Saturday June 15th and Sunday June 16th 2019

Gesture of Awareness is a unique approach to the practice of mindfulness. Mindfulness is being understood as the exploration of a quality of presence. In sheer presence, we are no longer caught up in the complex, on-going conceptual stories in which we usually exhaust ourselves. The silent practice both in stillness and in movement allows participants to come into the presence through simple, less contrived activities such as taking a step, opening the eyes, or touching another person. The gentle guidance supports inner stillness and an opening to a global experience of one's own being.

Charles Genoud teaches Buddhist meditation both in Switzerland and internationally. His unique approach of Gesture of Awareness is the result of the combination of Buddhist meditation with the practice of sensory awareness.
